

Super-Systemic

Premier Formulation

Inside-Out Protection

Lock Tight™ Technology

**INTRODUCING**

# NipsIt™ SUITE

**INNOVATIVE, ALL-IN-ONE CEREAL SEED TREATMENT THAT'S  
ENGINEERED TO PROTECT™ PLANT GROWTH AND YIELD  
FROM THE MOST DAMAGING DISEASE AND INSECT PESTS**

## **PEST CONTROL CHALLENGE**

Fusarium, pythium and wireworms cause significant losses every year in untreated cereal crops. Add in the damages from many other common pests, and your crops could face severely reduced plant stands and limited yield potential.

## **NUFARM SOLUTION**

NipsIt™ SUITE delivers the most complete cereal seed and seedling protection of any seed treatment product. Its all-in-one fungicide and insecticide formulation provides increased plant stands and enhanced plant growth for more consistent yields than competitive seed treatments. Advanced *Lock Tight™ Technology* makes it easy to apply and enhances seed flow consistency. NipsIt SUITE protects your seed and your peace of mind.

## BETTER PROTECTION WITH NIPSIT SUITE

NipsIt SUITE seed treatment system provides better protection than other all-in-one seed treatments.

- **Novel chemistries** – two new active ingredients for cereal seed treatment
- **Superior formulation** – easy to apply and increases product retention
- **Best for key pests** – long-lasting and strong protection against wireworm, seed and root rots caused by fusarium, rhizoctonia, cochlidiobolus and pythium, plus seed-borne diseases including smuts and bunts

## REGISTERED CROPS

- Wheat (spring, winter, durum)
- Barley and oats (registration pending)

## PESTS CONTROLLED

### NIPSIT SUITE (ALONE)

- Common bunt (*Tilletia laevis*)
- Common root rot (*Cochliobolus sativus*)
- Fusarium (*Fusarium* spp.)
- Loose smut (*Ustilago tritici*)
- Pythium (*Pythium* spp.)
- Rhizoctonia (*Rhizoctonia solani*)
- Wireworm (suppression)

### NIPSIT SUITE + NIPSIT INSIDE®

- For enhanced protection from wireworms and aphids

## BENEFITS OF NIPSIT SUITE

- Best complete seed treatment that delivers two new active ingredients for cereals
- Protects the crop from the most common early insect and disease pests
- Provides broad-spectrum protection
- Delivers better performance than fungicide alone, or other mix options
- Increases crop yield by more than 3 bu./ac. compared to industry standards\*
- Easy-to-use and apply formulation limits dust off and will not hinder seed flow

\*Northern Seed LLC, Scobey, MT (2013)

## NIPSIT SUITE

- > **Active ingredients:**  
Group 4 insecticide (clothianidin) +  
Group 4 fungicide (metconazole) +  
Group 3 fungicide (metalaxyl)
- > Easy application
- > Ready-to-use
- > **Compatible with Nipsit INSIDE** for increased insect protection
